
List 15

Approved Repair Companies

This list identifies companies approved by Lloyd's Register Group Limited (LR) for undertaking repairs using one or more of the following techniques:

Thermal spraying
Electrolytic plating
Metal stitching
In-situ heat treatment
In-situ machining

Thermal spraying and electrolytic plating can also be applied as part of the original manufacturing process to enhance wear or corrosion resistance.

Where required, further information should be obtained from the current certificate of approval issued to the company by LR.

Approval only covers repairs undertaken at the location listed or by operatives from the listed address working on site under appropriate supervision.

The local LR surveying office is also listed.

NOTICE AND TERMS OF USE

Lloyd's Register, its affiliates and subsidiaries and their respective officers, employees or agents are, individually and collectively, referred to in this clause as the 'Lloyd's Register Group'. The Lloyd's Register Group assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register Group entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.
